Ecological Relationships | National Geographic Society

1. Introduce vocabulary terms related to ecological interactions and symbiosis. Explain that in this activity students will use a series of videos, images, and scenarios to identify and discuss examples of ecological and symbiotic relationships in the ocean.

16.3 Circulatory and Respiratory Systems - Concepts of ...

The Circulatory System. The circulatory system is a network of vessels—the arteries, veins, and capillaries—and a pump, the heart. In all vertebrate organisms this is a closed-loop system, in which the blood is largely separated from the body's other extracellular fluid compartment, the interstitial fluid, which is the fluid bathing the cells.

Why Animals Migrate | National Geographic Society

Elicit answers from students such as: lack of food and/or water, harsh weather, and specific needs for mating/hatching. If possible, look at animal migration examples on the worksheet Match the Animal to its Migration Type, from the activity Many Moves of Migration. 2. Have students preview the worksheet Species That Migrate.

Positive Discipline and Child Guidance | MU Extension

Every adult who cares for children has a responsibility to guide, correct and socialize them toward appropriate behaviors. These actions often are called child guidance and discipline. Positive guidance and discipline are crucial for children because they promote self-control, teach responsibility and help them make thoughtful choices. The more effective adult caregivers are at encouraging ...
