Master Reset. If neither rebalancing the load nor cleaning the drain trap resolves your problem, a master reset may help. Unplug the machine for approximately one minute. Plug it back in and reset the computer by opening and closing the door six times in 12 seconds. Not all machines will respond to this action.

Frigidaire Range Error Codes | Appliance Helpers

This oven trips the dedicated circuit breaker each time a user opens the door during the cook cycle. Luckily, I have an extended service warranty. I have had a switch replaced 3 times now to get the oven going again. Frigidaire just told me they would not replace the unit because it ...
