Political Anthropology: A Cross-Cultural Comparison ...

The reader will notice the discrepancies between Sangree's description of age grades and sets—15 year for each, totaling a cycle of 105 years—and his chart from which the one shown here is extrapolated to 1994. First, the age grade “small boys,” is 10 years, not 15. Second, the age grade “ritual elders” is ...

Race (human categorization) - Wikipedia

A race is a grouping of humans based on shared physical or social qualities into categories generally viewed as distinct by society. The term was first used to refer to speakers of a common language and then to denote national affiliations. By the 17th century the term began to refer to physical (phenotypical) traits. Modern science regards race as a social construct, an identity which is ...

Anthropology - Wikipedia

Anthropology is the scientific study of humanity, concerned with human behavior, human biology, cultures and societies, in both the present and past, including past human species. Social anthropology studies patterns of behaviour, while cultural anthropology studies cultural meaning, including norms and values. Linguistic anthropology studies how language influences social life.
