14/3/2017 · Ive decided I want to improve handling of my vRS, so Ive decided to replace either the springs or go for coilovers. Problem is, I cant decide which. I already have an ARB. It sounds like lowering springs merely increase the ride firmness solely due to a higher spring rate because theyre lower (sh...

BC Racing – #go4gold

BC Racing offers truly bespoke coilover systems for motorsport applications. Motorsport systems require BC Racing engineers to work directly with your team and/or suspension engineer. Once the best system for a particular series is determined, all the chassis details are worked out to build a unique suspension system that cannot be purchased ...

RM Series Coilover - BC Racing

Coilovers use a locking collar to prevent the bottom mount becoming loose. If the bottom mount becomes loose then the damper body can work its way down into the bottom mount so reducing ride height on that one corner which can lead to dangerous handling characteristics. This is a very common problem for coilovers in general.
