Traffic congestion - Wikipedia

Traffic congestion is a condition in transport that is characterised by slower speeds, longer trip times, and increased vehicular queueing. Traffic congestion on urban road networks has increased substantially, since the 1950s. When traffic demand is great enough that the interaction between vehicles slows the speed of the traffic stream, this results in some congestion.

You can quickly finish them to visit the page and next enjoy getting the **Tomtom Go 2050 Manual** book. Having the soft file of this sticker album is afterward fine enough.
