A heuristic evaluation is a “usability engineering” method ...

Reading Usability Engineering Jakob Nielsen

A heuristic evaluation is a “usability engineering” method developed by Jakob Nielsen to determine usability issues with a website. This type of evaluation requires the testers to use a set of evaluators to examine the website and assess if it meets guidelines which coincide with the usability principles defined by Nielsen.

Jakob Nielsen's 10 usability heuristics for human-computer ...

Reading Usability Engineering Jakob Nielsen

In this article we will explain what the 10 usability heuristics for human-computer interaction are. According to one of the pioneers of usability engineering, Jakob Nielsen:

"Heuristic evaluation is done by looking at an interface and trying to come up with an opinion about what is good and bad about the interface" (Nielsen, 1993, 155).
